# COURSE DESCRIPTION

BIGANTO 360 is an advanced and all-encompassing trading program aimed at seasoned traders. It emphasizes mastering the Forex and Cryptocurrency markets at a professional institutional scale.

Biganto 360 combines intricate derivatives strategies, detailed market analysis, and innovative digital asset trading methods. It includes advanced derivatives such as futures, options, and forwards, as well as complex trading techniques used by hedge funds and institutional traders in both conventional forex and cryptocurrency markets. Participants will learn how to navigate market fluctuations, apply effective hedging methods, and spot arbitrage opportunities across different asset classes.

This program is perfect for experienced traders looking to adopt institutional-level strategies, diversify their investments across various markets, and succeed in the fast-changing financial environment.

## COURSE OBJECTIVES

- **Expertise in Multi-Asset Trading:** Acquire professional-level proficiency in forex and cryptocurrency markets.
- **Mastery of Derivatives:** Achieve comprehensive knowledge of futures, options, forwards, and sophisticated derivative strategies.
- **Application of Institutional Strategies:** Discover and apply trading methods utilized by hedge funds and financial institutions.
- **Analysis Across Markets:** Grasp market interconnections and recognize arbitrage possibilities.
- **Advanced Risk Management Techniques:** Become proficient in hedging and portfolio management strategies for enhanced risk control.
- **Career Advancement in Professional Trading:** Develop the crucial skills needed for a successful career in institutional trading.
