COURSE DESCRIPTION

The foreign currency market is the biggest and most liquid financial market in the world, with daily transactions of approximately \$7–8 trillion. However, 90% of retail traders fail because they don't learn enough or become ready, even though they may make a lot of money. BIGANTO PRO TRADER fills this important gap by offering thorough, organised training that turns total beginners into pros that make money all the time.

BIGANTO PRO TRADER is a complete forex education curriculum that teaches students everything from the basics to advanced institutional trading. This "Basic + Advanced" course starts with the basics of forex, moves on to technical analysis and advanced institutional tactics, and ends with professional execution techniques. After completing funded account preparation, qualified graduates have the rare chance to manage up to \$15,000 in institutional money.

BIGANTO PRO TRADER has a full program for professional trading success that includes market basics, technical analysis, institutional strategy, risk management, and trading psychology. The program is focused on getting results and turning beginners into skilled traders. It has a track record of successful graduates and funded account criteria. It attempts to lay the groundwork for a career change, extra money, or financial freedom through professional trading.

COURSE OBJECTIVES

- **Comprehensive Forex Mastery:** Learn everything you need to know about forex basics, how the market works, and how to analyse the economy so you can make professional-level decisions.
- **Technical Analysis & Strategy:** Learn how to use chart patterns, indicators, volume analysis, and multi-timeframe tactics to find trade opportunities with a high chance of success.
- **Advanced Strategies for Institutions:** Use Smart Money Concepts (SMC) and ICT methods like Order Blocks, Fair Value Gaps, and recognising market manipulation.
- **Risk Management and Trading Psychology:** To protect your money and get consistent results, you need to develop a disciplined attitude and build up strong risk management methods.
- **Professional Execution and Consistency:** Create systematic trading methods, show that you can execute trades at an institutional level, and reach the degree of consistency needed for funded accounts.
- **Career and Business Transformation:** Get ready for jobs in private companies, start your own trading business, and get ready to be a trade teacher or mentor.
